

## AMV6-2 & AMV7-2

Automotive Rear View Systems

### Vehicle Video System Provides Stunning Resolution and Low Light Performance!

Our automotive video systems includes rugged weatherproof CCD cameras delivering 380 lines of resolution and 0.5 lux. A precision micro lens with 100° FOV gives you a commanding wide angle view. The camera and monitor mounting brackets are heavy duty steel and the 65' cable has heavy duty ruggedized connections. This LCD video system has many applications anywhere a high performance, weatherproof, 12 volt monitoring system is needed. The 5.5" monitor (AMV6-2) is sharp and detailed with brightness and contrast adjustments and switchable mirror image function. The 7" LCD monitor (AMV7-2) has dual camera inputs, audio with built-in speaker and heavy duty mounting bracket. The color LCD screen (AMV7-2) makes it easier to view in all lighting situations. The camera and monitor have a well thought out power protection circuit which accepts voltages from 11-36 volts DC. This very cost effective system is great for RV's, trucks, buses and anywhere else a rugged, weatherproof monitoring system is needed. This system makes backing up safe and easy.

### KEY FEATURES

- 380 lines of resolution, 0.5 lux
- Precision micro lens with 100° field of view
- Heavy duty steel camera and monitor mounting brackets
- 65' cable with heavy duty rugged connections
- Operates on 12 volts
- AMV6-2 includes 5.5" monitor with brightness and contrast adjustments and switchable mirror image function
- AMV7-2 includes a color 7" LCD monitor with dual camera inputs, and audio with built-in speaker
