Tough and Easy to Use

The CD23 is a vandal resistant weatherproof color dome camera. Originally designed for European subway and mass transit systems, the unique case design makes this camera unobtrusive and virtually grip proof. It comes with a fully adjustable tilt and swivel allowing total flexibility for ceiling or wall mount applications. The vandal resistant housing is made of a virtually indestructible aluminum alloy with a shatter proof polycarbonate dome cover to make sure you get the evidence every time.

Outstanding Image Quality

The CD23 operates on 12V DC or 24V AC and uses the latest Panasonic 1/3" high resolution CCD image sensor. It delivers a brilliant 480 lines of resolution with a stealthy 0.5 lux low light rating. Size is 4.9" in diameter and 2.75" in height.
