### Tough and Easy to Use

The CD23VF is a vandal resistant weatherproof color dome camera. Originally designed for European subway and mass transit systems, the unique case design makes this camera unobtrusive and virtually grip proof. It comes with a fully adjustable tilt and swivel allowing total flexibility for ceiling or wall mount applications. The vandal resistant housing is made of a virtually indestructible aluminum alloy with a shatter proof polycarbonate dome cover to make sure you get the evidence every time.

### Outstanding Image Quality

The CD23VF operates on 12V DC or 24V AC and uses the latest Panasonic 1/3" high resolution CCD image sensor. It delivers a brilliant 480 lines of resolution with a stealthy 0.5 lux low light rating. It also has a 4-9mm lens so you can get the exact field of view you need. Size is 4.9" diameter X 2.75" tall.
