### Providing you with Excellent Performance

This one is sure to become a CCTV installer favorite. Rugged weatherproof chassis and a very small profile of only 2.7" x 2" in height makes this camera ideally suited for ATM's, correctional facilities, building security, vandal prone areas and more. Even when exposed to the harshest of light contrast typically found in entry ways, parking lots etc., the built in Sony chipset will continue to provide well defined images with 420 lines of color resolution with low light of only 0.1 lux.

### Easy Installation and Additional Features

Multi-axis turret design requires no disassembly for camera adjustment, providing for a fast and easy camera orientation and installation anywhere on walls or ceilings. The CD35 also comes complete with plug and play cables, a one year warranty and a 30 day money back satisfaction guarantee.
