Versatile and Unobtrusive

One of the hottest trends in security and observation cameras is domes. Versatile and unobtrusive, they're easy to mount anywhere. The CD36 mounts on almost any wall, ceiling, eave or overhang. The heavy duty cast housing and polycarbonate dome makes the CD36 invincible to driving rain, snow, prisoners, vandals, thieves and the likes thereof.

Day and Night

Getting the exact field of view is done in just seconds with a powerful 3.3mm - 12.0mm varifocal zoom lens. The CD36 has an automatic day/night switch offering extreme low lux rating of 0.1 (day) and 0.002 (night). This camera utilizes the new Sony Super HAD CCD, which delivers stunning resolution in both the day and night modes.
