Based off our Popular CD21

The CD25 and CD26 series cameras are based off of our popular CD21 camera with a unique case design that makes this camera virtually grip and kick proof. We have added a powerful zoom lens, adjustable IR array and an active UTP to send video up to 4000' down twisted pair. Versatile and unobtrusive, it is easy to mount anywhere. Encased in a virtually indestructible aluminum metal alloy vandal resistant housing, you will be sure to get the evidence every time.

Additional Features

These cameras have a 1/3" Sony chipset producing 540 lines (420 non HR model) and a powerful zoom IR corrective aspherical auto-iris lens (3-9mm or 9-22mm). On board video out allows for easy positioning of camera angle and focus. Operates on 12v/24v and includes easy connection instructions, 1 year warranty, and a 30 day money back satisfaction guarantee.
